Poster presentations

1. Do expectancies and cravings dissociate during extinction? Effects of extinction instructions on the extinction and spontaneous recovery of conditioned responses to chocolate-associated cues
   **K. van den Akker**, A. Jansen, M. van den Broek, R. Havermans
   Maastricht University

2. A role for enjoyment in promoting healthy eating: Greater fruit selection and consumption following the use of more enjoyable fruit on a health promotion poster
   **K.M. Appleton**
   Bournemouth University

3. Effectiveness of school-based nutrition programme Taste Lessons on children's willingness to taste vegetables
   **M. Battjes-Fries**, A. Haveman-Nies, G. Zeinstra, H. Meester, P. van 't Veer, C. de Graaf
   Wageningen University

4. The acute effects of wild blueberry (V. angustifolium) on cognition: a dose-response study
   **L. Bell**, D.J. Lamport, L.T. Butler, C.M. Williams
   University of Reading

5. Crowdsourcing childhood predictors of adult obesity
   Radboud University Nijmegen

6. Emotional eating and Pavlovian learning: Can negative emotions become conditioned stimuli?
   **P. Bongers**, A. Jansen
   Maastricht University

7. Rinsing, independent of energy and metabolism, improves ego depleted self-control performance
   **N.B. Boyle**, K. Newens, R. Allen, C.L. Lawton, L. Dye
   University of Leeds

8. Dissociating the effects of hedonic value and perceived energy content in a milkshake preload on subsequent behavioural impulsivity
   **A. Brace**, H.S. Crombag, M.R. Yeomans
   University of Sussex
9. Food preferences after Roux-en-Y Gastric bypass surgery
   **S.E.M. de Bruijn, H.F.A. Zoon, C. de Graaf, G. Jager**
   Wageningen University

10. Changing food choice through cued approach: Impulsive or deliberative response?
    **Z. Chen, H. Veling, M. Tombrock, I. Verpaalen, L. Schmitz, A. Dijksterhuis, R. Holland**
    Radboud University Nijmegen

11. Focus on the future: Episodic future thinking in order to reduce discount rate and snacking
    **F.C.M. Dassen, K. Houben, C. Nederkoorn, A. Jansen**
    Maastricht University

12. Hedonic Ambrosia: Highly palatable desserts are resistant to satiation-related changes in attentional bias
    **G.R. Davidson, P. Bulsing, T.C. Kirkham**
    University of Liverpool

13. Influence of texture, taste and/or flavour modifications on chewing behaviour of food gels
    **J. Derks, R. de Wijk, M. Stieger**
    Wageningen University

14. Dose-response effects of water supplementation on cognitive performance in children
    **C.J. Edmonds, L. Crosbie, N. Jacob, M. Gardner**
    University of East London

15. Dieting and binge eating in a large European cohort of adolescents: the I.Family study
    Altrecht Eating Disorders Rintveld

16. Does dietary variability promote uncertainty about expected satiety?
    **N.R. Evans, R.L. Griggs, A.A. Martin, D. Ferriday, P.J. Rogers, J.M. Brunstrom**
    University of Bristol

17. Offering within-category food swaps to reduce energy density of food purchases: a study using an experimental online supermarket
    **S.E. Forwood, A.L. Ahern, T.M. Marteau, S.A. Jebb**
    Behaviour and Health Research Unit

18. The fast-food nudge: Choosing salad over fries
    **J.C.A.H. Giesen, K. Geyskens, C. Goukens, R.C. Havermans, A. Jansen**
    Maastricht University
19. Sensory drivers of food-evoked emotions  
   **S. Gutjar**, C. de Graaf, R. de Wijk, G. Jager  
   Wageningen University

20. Behavioral and physiological responses to sensory-specific satiety  
   **W. He**, S. Boesveldt, C. de Graaf, R.A. de Wijk  
   Wageningen University

21. Take it slow! Using an augmented fork to reduce eating speed: A qualitative user experience study  
   Radboud University Nijmegen

22. Is an energy-dense, low fibre diet pattern related to adiposity in UK children?  
   **K. Hurley**, M. Pallan, E. Lancashire, P. Adab  
   University of Birmingham

23. Spoon size effects energy intake at an ad-libitum porridge breakfast  
   **L.J. James**, T. Maher, J. Biddle, D.R. Broom  
   Loughborough University

24. Carbohydrate mouth rinse reduces subsequent food intake  
   Nottingham Trent University

25. Measuring interoceptive awareness in external eaters: a test of Schachter's 'externality' theory  
   **G.S. Keenan**, P.J. Rogers, J.M. Brunstrom  
   University of Bristol

26. Weight management strategies inventory (WMSI): Development of a new measurement instrument, construct validation, and association with dieting success  
   **C. Keller**, M. Siegrist  
   ETH Zurich

27. The effect of a functional food based breakfast on cognitive performance  
   **S. Kennedy**, M. Clegg, L. Ryan  
   Oxford Brookes University

28. Effects of bread roll unit size on bread and energy intake in children  
   **E. van Kleef**, L. Rijk, M. Vrijhof, I. Polet, M. Vingerhoeds, R. de Wijk  
   Wageningen University
29. I want it now! Behavioural and self-reported impulsivity differentially modulate brain responses to food choices
UMC Utrecht

30. Food rejections in children: Cognitive and social/environmental factors involved in food neophobia and picky/fussy eating behavior
J. Lafraire, C. Rioux, A. Giboreau, D. Picard
Centre for Food and Hospitality Research

31. Is it food or not food? How 3-4 years old children respond to a rapid categorization task
J. Lafraire, C. Rioux, J. Roque, A. Giboreau, D. Picard
Centre for Food and Hospitality Research

32. The effect of food cues on focused attention
I. van Loon, J. Wegman, R. Cools, E. Aarts
Radboud University Nijmegen

33. Preventing obesity and eating disorders through behavioural modifications: the SPLENDID vision
Wageningen University

34. Expected satiation and actual food intake of applesauces varying in texture are only correlated for products expected as the least satiating
INRA UMR CSGA

35. Is flavour-nutrient learning disrupted by dietary variability?
A.A. Martin, N.R. Evans, R.L. Griggs, D. Ferriday, P.J. Rogers, J.M. Brunstrom
University of Bristol

36. Chocolate versions of the Food Cravings Questionnaires: Associations with chocolate exposure-induced salivary flow and ad lib chocolate consumption
A. Meule
LWL University Hospital of the Ruhr University Bochum

37. Stability in consumers responses to unfamiliar hibiscus drinks
M.J.P. Monteiro, A.I.A. Costa, M. Cisse, K. Tomlins, M.M. Pintado
Centre of Biotechnology and Fine Chemistry

38. Exploring affective (liking) and non-affective (expected satiety) determinants of food preference and meal size in young children
University of Bristol
39. Protein status modulates the activity of reward system in response to protein intake  
   **I. Recio**, C. Chaumontet, N. Darcel, D. Tomé, G. Fromentin  
   CSIC-Institute of Food Research  

40. Neural processing of calories is modulated by sensitivity to reward in the caudate and anterior cingulate cortex  
   **I. van Rijn**, C. de Graaf, P.A.M. Smeets  
   Wageningen University  

41. Portion size: How much should I eat?  
   **E. Robinson**, C. Hardman  
   University of Liverpool  

42. Anorexia Nervosa: when appetite does not come natural  
   **N. Sanders**, P. Smeets, U. Danner, A. van Elburg, H. Hoek, R. Adan  
   Altrecht Eating Disorders Rintveld  

43. Comparing two methods to measure emotions elicited by beer, wine and non-alcoholic beer  
   Wageningen University  

44. Olfactory Specific Satiety: Evidence from a difference perspective  
   **L.D. Stafford**  
   University of Portsmouth  

45. Positive emotional eating relates to binge eating independent of negative emotional eating  
   **H. Sultson**, U. Vainik, K. Akkermann  
   University of Tartu  

46. Food-evoked emotion profiles of seniors and adults  
   Wageningen University  

47. The effect of a serving size recommendation on the amount of snack food served and on the magnitude of the pack size effect  
   **I. Versluis**, E.K. Papies, D. Marchiori  
   Erasmus School of Economics  

48. Learning to eat sweets. The effects of age and reward sensitivity on appetitive conditioning  
   **L. Vervoort**, B. Vervliet, C. Braet  
   Ghent University
49. Reported changes in sensory perception, appetite and hunger feelings during chemotherapy in breast cancer patients
   Y. de Vries, R. Winkels, S. Boesveldt, H. van Laarhoven, E. Kampman, C. de Graaf
   Wageningen University

50. Eating in moderation and the essential role of awareness: a Dutch longitudinal study identifying psychosocial predictors
   M.J.L. Walthouwer, A. Oenema, M. Candel, L. Lechner, H. de Vries
   Maastricht University

51. Effect of offering vegetables in different taste gradients on its acceptance in toddlers
   V. de Wild, C. de Graaf, G. Jager
   Wageningen University

52. Children's food liking; lessons learned from an individual approach
   G. Zeinstra, A. Janssen, D. Stijnen, S. Kremer
   Wageningen University and Research Centre
