Summary:

DESCRIPTION OF THE PROPOSED RESEARCH

6. Description of the proposed research

Max. 4 pages, including figures, excluding literature references. Include details of objectives, scientific approach, innovative aspects, impact, and literature references (please include full bibliographical details).

7. Timetable of the project

Give a practical timetable over the grant period, max. 0.5 page.

8. Data management

8.1: Will data be collected or generated that are suitable for reuse?

> Yes: Then answer questions 8.2 to 8.4

> No: Then explain why the research will not result in reusable data or in data that cannot be stored or data that for other reasons are not relevant for reuse

8.2: Where will the data be stored during the research?

8.3: After the project has been completed, how will the data be stored for the long-term and made available for the use by third parties? To whom will the data be accessible?

8.4: Which facilities (ICT, (secure) archive, refrigerators or legal expertise) do you expect will be needed for the storage of data during the research and after the research? Are these available?*

**ICT facilities for data storage are considered to be resources such as data storage capacity, bandwidth for data transport and calculating power for data processing.*

9. Utilisation perspectives & economic and/or societal relevance

Describe the utilisation perspectives of the project and the relevance of the results and/or insights from the research for and the contribution to solving societal and economic issues relevant to the top sector Agri&Food and/or Horticulture & Starting Materials; max. 1 page.

10. Composition of the consortium and matching

Indicate the role of the private and/or public partners involved in the project and the matching that is required. In case the project is a collaboration between two research groups, please include some details about the daily supervision of the PhD candidate; who will be responsible for that? Include the specification of the in-kind matching. For the cash matching, please provide the specification under 11b. In case the partners would like to contribute only in cash, indicate this as well.

COMPOSITION OF THE CONSORTIUM		
	Institute/Company/Organisation	Contact person
Collaborators (national or international)		
Private partner (include KvK/Chamber of Commerce number)		
Public partner (include KvK/Chamber of Commerce number when relevant)		

In-kind matching (including specification):

Cash matching (please provide the specification under 11b):

Please note that the application needs to be accompanied by a letter of commitment from every partner stating the amount and nature of in cash and in kind.

FINANCIAL DETAILS

11a. Cash budget

Please use the table below for the description of the personnel and material resources requested for the project. The maximum TKI budget available per project is € 275,000; including € 25,000 cash matching of the partners this results in a total cash budget of € 300,000 per project. For your convenience, this example is indicated in the table.

For each project there is also a € 25,000 in-kind matching required which you already specified under 10. In case you request less than the maximum budget, you have less or more partners than indicated in this table, or the partners would like to contribute only in cash, please adapt the schedule.
