Lunch lecture: The road to the Spinoza Prize, John Van der Oost

How was the road to CRISPR-Cas9 and the Spinoza Prize? Was this a sinuous road? What lessons did he learn along the way? John Van der Oost will talk about this and more during this interesting lunch lecture. Join us!

Prof. dr. J. (John) Van der Oost:

Professor of Microbiology, is internationally regarded as one of the founders of the pioneering CRISPR-Cas9 technique. CRISPR-Cas9 is a molecular system that enables scientists to cut DNA with high precision allowing the modification of genes. He was awarded a Spinoza Prize in 2018 for his outstanding, ground-breaking and continuous work on CRISPR-Cas9.
